NOTE: The above criteria of KMI Index is approved by Sharia'h
NC = Non - Compliant

N/A = Not Applicable

* These are provisional rates for dividend purification, which are subject to final adjustment upon announcement of respective companies' annual accounts for the year 2025/2026
** Only illiquid Assets to Total Assets and Net Liquid Asset ratios calculated of all Islamic Financial Institutions
Due to circular debt non-compliant investment and non-compliant income ratio is exceeding the approved threshold of ratio, therefore exception is given over non-compliant investment and non-compliant income ratio. Further due to circular debt the share of profit from associates (CPHGC, TNPTL & CPHOC) has been adjusted upto the extent of non-compliant income ratio of these associated companies and late payment interest (LPI) earned has also been adjusted with LPI paid by HUBC.
(%) FFC and KOHC did not meet the minimum threshold of PSX KMI Index Shariah filters based on their June 2025 accounts. However, both companies have expressed their willingness and provided a formal commitment to improve their ratios within the next two quarters. Considering this commitment, these companies are being considered Shariah compliant.
It is important to note that SECP's notification S.R.O. 1348 (I)/2023 allows exceptions to be granted if company provides its commitments to rectify the breach within a maximum of the next two quarters. Furthermore, as both companies are already Shariah compliant in their September 2025 accounts, their intention and ability to maintain Shariah compliance appear well-founded.
*** In view of the prevailing circular debt situation impacting the oil and gas sector and based on the OGD's & PPL's communication and discussion regarding their willingness and commitment to improve income ratio over the upcoming quarters as well as the Government of Pakistan's active efforts and measures to resolve the circular debt issue, it is expected that it will impact positively the on the income ratio of these companies. Considering the above and the company's demonstrated commitment to improve ratio within the next couple of quarters, an exception is being granted to OGD and PPL over income ratio for the current review period.
As these are from service based sector and their fixed assets are not significant in value therefore, these are considered as Compliant and relaxation provided over illiquid assets to Total Assets ratio and / or Net Liquid Asset per share.
